ELSEVIER

Reviews on Cancer

Vol. 1332, 1997

BIOCHIMICA ET BIOPHYSICA ACTA
BBA

Cumulative Contents

Editorial *vii*

Information for Contributors *xi*

Mini-reviews

Virocrine transformation
D. Drummond-Barbosa and D. DiMaio (USA) M1
Interdependence between muscle differentiation and cell-cycle control
R. Maione and P. Amati (Italy) M19
Translational regulation of maternal mRNA
L.E. Hake and J.D. Richter (USA) M31
Cyclin-dependent kinase inhibitors: the age of crystals
J. Pines (UK) M39

Review

Dbl family proteins
I.P. Whitehead, S. Campbell, K.L. Rossman and C.J. Der (USA) F1

Meeting reports

Wnt Meeting 1996
K.M. Cadigan and R. Nusse (USA) R1
NFκB/IκB proteins. Their role in cell growth, differentiation and development. Madrid, Spain, July 7–10, 1996
U. Siebenlist (USA) R7

Information for Contributors *vii*

Mini-reviews

Towards a unified model of tumor suppression: lessons learned from the human *patched* gene
M. Dean (USA) M43
Cdc25 protein phosphatases in cell proliferation
G. Draetta and J. Eckstein (Italy, USA) M53

Reviews

Studies of neoplasia in the Min mouse
A.R. Shoemaker, K. A. Gould, C. Luongo, A.R. Moser and W. F. Dove (USA) F25
Everything you have ever wanted to know about Yin Yang 1.....
Y. Shi, J.-S. Lee and K.M. Galvin (USA) F49

Meeting reports

Whitehead Symposium on Cancer
J.M. Adams (Australia) R15
Gene Therapy 1996
G. Dranoff (USA) R21
Cancer genetics and tumor suppressor genes. Sponsored by Cold Spring Harbor Laboratory – August 14–18, 1996
D.M. Livingston (USA) R25
Maturation of cancer vaccinesA meeting report on 'Cancer Vaccines 1996,' sponsored by the Cancer Research Institute, held October 7–9, 1996
D. Pardoll (USA) R33
DNA replication under the Rigi Kulm. EMBO workshop on 'Molecular Biology of DNA Replication', Weggis, Switzerland, 8–13 September 1996
P.C. Van der Vliet (The Netherlands) R37

Opinion piece

Mechanism of p53 degradation
J.P. Brown and M. Pagano (USA) O1

Information for Contributors *vii*

Mini-review

The *FHIT* gene, a multiple tumor suppressor gene encompassing the carcinogen sensitive chromosome fragile site, *FRA3B*
K. Huebner, P. Hadaczek, Z. Siprashvili, T. Druck and C.M. Croce (USA) M65

Reviews

Contribution of oncogenes and tumor suppressor genes to myeloid leukemia
L. Wolff (USA) F67

The IGF-I receptor in cell growth, transformation and apoptosis
R. Baserga, A. Hongo, M. Rubini, M. Prisco and B. Valentinis (USA, Italy) F105

The adenomatous polyposis coli (APC) tumor suppressor
P. Polakis (USA) F127

Meeting report

The control and execution of programmed cell death: an update
C.S. Duckett and C.B. Thompson (USA) R45

Cumulative contents, Vol. 1332
